

Thurs. 3/9/23

To the owner of Aire Solutions:

I have had problems with my GEO Thermal since last summer + have had no luck getting it fixed by the Co. it was purchased from. I am so thankful to your Company for sending me Terry Douglas. He worked steady without taking a break. I feel sure he has fixed my Unit. My whole house is warm as it should be. It feels so great! I have spent many days + nights worrying about the system not working, while being told by the person that put it in that there was nothing wrong with the system. You have no idea what a blessing your Co. has been to me + that warranty covered the parts. I have been without heat all winter, except for my fireplace + 2 small heaters. I feel sure when summer comes that my air will work properly again. I can't say enough good about the fine employee you have + great service!

Without Service, you have nothing
when something goes wrong.

Again, Thanks so very much!
Sincerely, Myrula & David

PS. I wrote a great review. My
phone showed it was sent, but I
looked on your website, it never
showed up. I'm sorry, I must
have done something wrong.
